(To be written on this margin.)

Office of the Dewan of Mysore.

NOTE.

Dated 30th September 1915.

L7 Misc 775-15
Med. 69-15=X

The Secretary, General Department, will be good enough, with the approval of the Extraordinary Member of Council, to call for proposals from the Senior Surgeon for training one or two local men as oculists for the Medical Department. There is a paucity of specialists in eye diseases in the Medical Department.

2. The subject should be brought on the list of questions awaiting consideration in the Secretariat and attention drawn to it at least once in three months.

To

The Secretary to the Government of
H. H. the Maharaja of Mysore,
General Deptt., Bangalore.

Sir,

With reference to your letter No. 5892-Med.69-15-3 dated 12-2-1916, I have the horor to state that there ought to be always available at each of the cities of Bangalore and Mysore, two Specialists in Ophthalmic surgery (one senior and one junior,) two in throat, nose and ear diseases and one in Dentistry, or ten Specialists in all. There are now in the Service two Ophthalmic doctors and one throat, nose and ear Specialist in Bangalore and one officer in Mysore, who has specialised in eye work as well as in diseases of the throat, nose and ear, or 4 Specialists.

2. Of these, the senior Opthalmologist and the Throat, nose and ear Specialist in Bangalore are, in the usual course, expected to retire after 5 and 10 years respectively.

3. Thus, the requirements of our Medical Service after 5 years will be met if we get 7 officers trained as Specialists, of whom two should be Dentists, two Oculists and three Specialists in throat, nose and ear diseases.

4. Should the Government consider that a separate senior Specialist in throat, nose and ear diseases is not

From

Rajakarya Pravina Rao Bahadur

T. V. Armugam Mudaliar, Esq., M. B., C. M.,

Senior Surgeon with the Government of

H. H. the Maharaja of Mysore, Bangalore.

To

C. S. Balasundaram Iyer, Esq, B.A,
Chief Secretary to the Government of

H. H. the Maharaja of Mysore,

Department, Bangalore.

Sir,

With reference to your letter No.6654-Med.69-15-7 dated the 25th May 1918, I have the honour to state that the most urgent necessity is for two officers trained in dentistry, one for the Victoria Hospital, Bangalore and one for the Krishnarajendra Hospital, Mysore. Two officers have therefore to be sent very early for training in dentistry for a period of 3 years either in America or in England.

The other special branches of the Department are diseases of the eye and diseases of the throat, nose and ear.

There are in the Department two specialists, in Ophthal mology, who are doing the work, one in the Minto Ophthalmic Hospital and the other in the Eye Department of the Krishnarajendra Hospital, Mysore. The need for extra hands is therefore not so pressing. However, the next batch of two students may be deputed for training in Ophthalmology. To obtain the Degree of D.O of the Oxford University may take about one or two years.

The third special Department is connected with the diseases of the throat, nose and ear. Specialisation in

in this Department consists in attending for periods of about 4 or 6 months, special hospitals devoted to the treatment of these diseases. Mr. Mylvaganam in Bangalore and Messrs. S. Subba Rao and B.K. Narayan Rao in Mysore have had this qualification. Two more officers may be deputed for this course for a year, in the third batch under the rule I sanctioned for deputation of officers to foreign countries in G.O.No.11262-310-G.M.369-14-2 dated the 19 April 1915.

2

The above will met the requirements of this Department for the next ten years or so.

I have the honour to be,

Sir,

8357

In continuation of my letter No.267-6, dated 23rd December 1918, submitting proposals for the training of officers of this department in foreign countries in special branches of medicine and surgery, I have the honor to forward herewith a copy of letter No.834, dated 4th January 1919 from the Medical Officer, Victoria Hospital, recommending that each of the Victoria Hospital, Bangalore and the Krishnarajendra Hospital Mysore, may be provided with an officer trained in Pathology advanced Bacteriology and Tropical medicine, and a physician possessing the L.R.C.P. diploma of London, and to state as follows.

The clinical laboratory of the Victoria Hospital, was for many years under the late Mr.P.S.Ramachandra Iyer, Hony. Assistant Surgeon, who had special training in bacteriology. After his transfer medical graduates who had undergone the course for the B.S.Sc, Degree of Madras were posted to that laboratory, and in their absence, Medical Graduates and Sub Assistant Surgeons who had a course in Bacteriology were posted. For the Krishnarajendra Hospital, a Sub Assistant Surgeon was specially trained at Madras on the recommendation of Col. Foulkes, for the duties of Pathologist in that Hospital, under G.O.No., 3361-2-Mad 185-12 dated 8th September 1913. As regards the diploma of L.R.C.P. (London), Messrs. C.A. Nanjappa, S.Subba

Subba Rao and B.K.Narayana Rao, possess the qualification. They are all at Mysore and could serve as Physicians as well as in the other capacities in which they are now employed.

However, to complete the organisation of these two hospitals on up-to-date lines, I would add to the list already sent with my letter dated 23rd December,

a fourth batch of two officers, for specialisation in Pathology, advanced Bacteriology and Tropical Medicine, (one year)
a fifth batch of two students for the diploma of L.R.C.P. and M.R.C.S, (London),(2years)

and would also add the deputation of a Lady Officer with the third batch, for a year or less, for the diploma of L.M., (Rotunda Hospital, Dublin), for one of the Maternities.

I have the honor to be,

Sir,

Your most obedient servant,

Senior Surgeon.

Letter No.834, dated 4th January 1919, from the Medical Officer, Victoria Hospital, to the Senior Surgeon.

As I hear you have sent proposals to Government to send our men to Europe and America to specialise in Dental Surgery, ear, throat, and nose, etc., I have the honor to point out that this hospital and the Krishnarajendra Hospital at Mysore, each requires a pathologist.

Pathologist must be well trained in general clinical and chemical Pathology, in advanced Bacteriology and Tropical medicine. This is a very important branch of Medical Science and every hospital in Europe is provided with a Pathologist.

I am sorry to say we are a half century behind time. You know how crudely and unsatisfactorily this work is done in this Hospital. Any Sub Assistant Surgeon seems to be fit for this most important work. Our diagnosis depends on his findings in special cases.

If you have not already submitted a proposal to Government, will you kindly include this requirement also ?

Further we require a physician for each of these Hospitals. If we can send two men to England to study for the M.R.C.P. (London) diploma, it would meet our requirements. (L.R.C.P.?) Simply walking round the hospital is not satisfactory. When the sanction is obtained, we can work out the details.

I have, etc.,

(Sd) H. B. Mylvaganam.

Medical Officer.

"C o p y"

Senior Surgeon.

Statement showing the amount of the bursaries

Serial No.	Branches of Medical Science in which the Candidates can be examined	No. of Bursaries to be awarded	Places in which they can be taken	Pl. to be taken
1	Dentistry	Two	Either in America or in England	3
